

One of the most debatable topics in today's society, has been the prevalence of **__(TOPIC)___** around the world. Proponents argue about the advantages of **__(PARAPHRASE TOPIC)___**, however opponents cite its disadvantages. In my opinion, **__(PARAPHRASE TOPIC)___** has a significant impact on **__(who does it affect? Like students/shoppers/environment)___**. This essay will elaborate both arguments in favour and against the **__(TOPIC)___**, and will present the resulting conclusion.

Firstly, there are many claims supporting the fact that **__(TOPIC)___** is advantageous; however, the most important one stems from the fact that **____(give idea in favour)_____**. As an illustration, **_____(make up an example)_____**. Therefore, it is evident that the implications of **____(TOPIC)___** must be considered.

On the other hand, those who disagree with the benefits of **__(TOPIC)___** present numerous points to its detriment. Nevertheless, the most prominent downside is linked to the idea that **____(give idea against)_____**. For example, **_____(make up an example)_____**. As a result, the negative consequences of **__(TOPIC)___** have to be addressed.

In conclusion, this dissertation has presented both the positive and negative sides of **__(TOPIC)___**. The supporting idea presented some logical examples, yet on the contrary, the argument against it elaborate on an equally important point view. In my opinion, they all have to be considered and resolved.

Cashless society is becoming a reality. More and more people are using credit cards for payment, and less people use cash. What are the advantages and disadvantages of this phenomenon?

One of the most debatable topics in today's society, has been the prevalence of **cashless society** around the world. Proponents argue about the advantages of **paying by card**, however opponents cite its disadvantages. In my opinion, **using credit cards** has a significant impact on **shoppers and customers**. This essay will elaborate both arguments in favour and against the **cashless society**, and will present the resulting conclusion.

Firstly, there are many claims supporting the fact that **using less cash** is advantageous; however, the most important one stems from the fact that **it provides more security from crimes like theft to its users**. As an illustration, **police reports show that robbers are twice as likely to steal from people who are paying by card as opposed to using cash**. Therefore, it is evident that the implications of **cashless society** must be considered.

On the other hand, those who disagree with the benefits of **cashless transactions** present numerous points to its detriment. Nevertheless, the most prominent downside is linked to the idea that **paying by card may be difficult in remote or rural areas around the world**. For example, **many regional territories outside of big cities don't have any ATM machines and rely more on paying with paper money, especially in places like outdoor markets**. As a result, the negative consequences of **using cards** have to be addressed.

In conclusion, this dissertation has presented both the positive and negative sides of **electronic payments**. The supporting idea presented some logical examples, yet on the contrary, the argument against it elaborate on an equally important point of view. In my opinion, they all have to be considered and resolved. **(TOTAL 274 WORDS)**
